

My role. Front-End Developer

Project description.

Designed and developed a modern responsive dental clinic landing page using WordPress and Elementor.

Focused on clean UI, trust-building layout structure, responsive sections, service presentation, and strong call-to-action design.

Features:

- Modern hero section
- Service cards with hover effects
- “Why Choose Us” trust section
- Premium CTA section
- Professional responsive footer

Tools Used:

WordPress, Elementor, UI/UX Design

Skills and deliverables
